Weak/Bright Students Policy

The Institute is sensitive to the fact that students have different learning abilities and makes an all-out effort to be inclusive in its teaching- learning processes. Efforts are made to raise the learning levels of both slow and advanced learners. The following mechanism is used for identifying advanced and slow learners:

Method of Identification of learner types:

Identification of weak students:

The identification of weak students will be on the basis of their past result. Also, the Faculty Mentors (FMs) conducts meetings regularly regarding progress of their students and are accountable to recognize students who got less than 50% marks in their internal examinations. Under the HOD direction, the subject teachers evaluate the progress of those students who got below 50% marks in their subject and attendance percentage less than 50% are considered as academically weak students (slow learners).

For weak students the Institute adopts the following strategies:

- All faculties conduct remedial lecture for their concern subject and provide subject notes and material to weak student.
- Mentor follows their progress in regular manner and advising students about regularly attending classes and getting additional help from concerned faculty.
- Identifying bright and weak students and to motivate the weak students to attend tutorials and help them solve more problems. Encourage the bright students to attend more workshops and technical talks.
- Group student study method is adopted to improve the performance of student.
- Motivated to attend tutorials and help them solve more problems.
- The faculty members also goes a step ahead and have periodic interaction with the parents about the performance of slow learners.

Identification Criteria for bright students

The bright students are identified based on their overall performance and their orientation towards academics.

For bright students the Institute adopts the following strategies:

- Gold, Silver and Bronze Medal winners at AKTU are awarded with cash prizes.
- Top three students from each class are identified and awarded with mementoes and certificates.
- Encouraged to take up mini projects and encouraged to participate in inter-college national/international-fest and motivate them to participate in competitive exams.
- Technical workshops are organized to help the students to understand concepts beyond curriculum.
- Encouraged to be the coordinators of various events and committees.
- Motivating and guiding students for higher studies and to get university ranks.
- Encouraged to participate in activities like technical quiz, poster presentation, debate and project competitions.
- Invited talks and seminars on the current trends are done regularly from the industry experts.
- Bright students are encouraged to attend conferences; workshops and publish papers or attend technical paper presentations.
- Industrial visits are conducted at least once or twice in a year to reduce the gap between industry and institute.
- Encouraged to take up innovative projects, to participate in professional activities and in various national level competitions.
- Encouraged and guided by faculty members to achieve University ranks, also encouraged to take up competitive examinations like GATE, GRE etc.,
- The bright students having orientation to research are encouraged by faculty member to publish their work in National and International conferences and Journals.
